OUR QUALITY POLICY

- To make continuous improvement sustainable in all our business processes by making lean thinking and lean change a lifestyle for all our employees and by applying lean production techniques,
- To produce food suitable for human health, in line with our Zeytursan Food Safety Policy, within the framework of the necessary hygiene rules, in a way that meets the national and international regulatory requirements, with the joint contributions of our conscious employees,
- To develop common values that affect the culture of food safety throughout an organization and to ensure the continuous improvement of food safety culture with the participation of all employees,
- To implement BRC, IFS, and food safety management system requirements,
- To meet our customers' demands continuously and on time,
- To aim for a zero-error model in all our business processes,
- To continuously reduce our waste and losses and achieve efficiency in all our processes in order to satisfy our customers, suppliers, employees, and business partners,
- Within the framework of our Zeytursan social responsibility policy, to support the continuous improvement and development of our staff's competencies in line with company targets by giving them the necessary training, responsibilities, and authorities, and to set targets and conduct performance analyses accordingly,
- To continuously implement our Zeytursan Occupational Health and Safety Policy in order to achieve our zero work accident and occupational disease targets.
